### "ROCK OF AGES."

Rock of ages, cleft for me,"
Thoughtically the maiden sung;
Fell the words unconsciously
From her girlish, gleeful tongue;
Sung an little children sing;
Eung as sing the birls in June;
Fell the words, like light leaves sown
'on the current of the tune—

"Hock of ages, claft for me;"
"Twas a windin sung their now,
Plessifingly and prayerfully;
Every word her heart did know.
Rose the song as storm-lossed birdBeats with warry wing the air,
Every note with sorrow stirred,
Every and table a prayer.

See; y note with sorrow sitred;
Every si lable a prayer;
Every si lable a prayer;
Hock al ages, cief for me,
at me hide myself in thee."
Hock of ages, cleft for me;
Lips grown sged song the byinn
Frastingity and tenderly,
Yoten grown wask and eyes grown dim
Let me hide mrealf in the!"
Trembling though the voice, and low,
Toembling though the voice, and low,
toem these weets that be successfully
intended to the second state of the second side of the second state
who hilds stony paths have proseed;
hang so only they can sing
Who blook the premised rest.

Who behold the premised rest.

who behald the premixed rest. Reck of ages cleft for me," Sang above a coffic's lid, Underseath, all restfaily, All lift's cares and sorrow hid. Series more, O storm-lossed soul, Kerer more from wind or title, fever more from wind or title, fever more from hid own or title, fever more from hid own rest Witt than need thyself to hile; build the sightless, sunken oyes, collections and the series of the collections of the series of the collections of the series of the collections of the collection of the collections of collect

me hide myself in thee."

## OUR NEW YORK LETTER.

NEW YORK, August 3.

The feeling on the great strike has er passed away in this section. The roads are all running, or preparing to run again. Passenger cars are running on all the roads, but freight trains are not regular yet. The great difference in the business of transportation is seen and felt in this city. Along the piers of

mainly one of dollars and cents. It is one of principle and justice. It proves that it pays to do right under all circumstances, and that good conduct will always meet a proper reward.

Now that the strike is over and past, it looks to me like the true inwardness of the case demands that each one of the railroad companies have a full understanding with its men and with each other. Let the process of cutting under each be stopped. There is no use for one railroad to try to do all the business of the country. It cannot do it. Neither could it afford to do it, flit were at its disposal. In the outset of this context I made the observation that it was unjust and unfair for the different trunk line railroads, in order to monopolize all the business, to put freight and passenger rates down so low that the wages of the day laborers must be continuously cut down so as to make the stock in the roads are adjusted. The business may be pushed to the proper was the pushes as to make the stock in the roads. A very Proper Prisoner.

Detect Free Press.

Let name will go down to posterity as first and passenger rates down so low that the wages of the day laborers must be continuously cut down so as to make the stock in the roads pay a dividend. The business men who use the railroads in freighting their merchandise, and those who travel on business, and especially those who summer at the "rea-aides," are the ones best able to pay such prices for their freight and passage as witl enable the railroad companies to declare respectable dividends, and at the same time pay their trainmen respectable, (iring usges. The indirect cause of the strike was the cutting under process indulged in by all our great trank lines for a year or more past. It is a clear case that if the same trank lines and the same trank lines for a year or more past. It is a clear case that if the same trank lines for a year or more past. It is a clear case that if the same trank lines for a year or more past. It is a clear case that if the same trank lines for a year or more past. It is

ling to extend the utmost courtery to the passage as will enable the railroad companies to declare respectable dividends, and at the same time pay their trainmen respectable, diving wages. The indirect cause of the strike was the cutting durfer process indulged in by all our great trunk lines for a year or more past. It is a clear case that if they carry freight and passengers for half what they used to charge, that they must cut down all expenses in that same proportion, otherwise their dividends would only be half what they formerly were. The point I wish to make is, that things should be equalized on an equitable basis. Stop the exposess of cutting under in prices for freight and passage, and I am very sure that there will never again be a strike by the trainmen.

The New York papers are crowing quite lustily over the fact that this State alone proved itself able to put the strikers down without Federal sid. There is no denying the fact that its militiats in a thoroughly organized condition, and can be put in the field by a few hours warning. This should be true of all the states. The Sun, a few days ago, went for the governors of the different states who called on the President for aid almost at the very ounce of strikes within their borders. It easy that a Governor who called for military assistance from the Government, before first calling out all of the able-bodied militiamen in his State, and trying them, is and should be termed an iddot. That is rather plain talk; and what is stranger still, it his two simon-pure Democracy as a rules is not sound or in any way reliable. It is my opinion that Governor Mathews, of West Virgin-that Governor Mathews, of West Virgin-that

abroad in all lands and that a large emigration of this people thitherward has set in. Some authorities declare even that the population of Palestine to-day ithis refers to the Jews the Rev. Dr. Lo.

that it may be true, but of the
secondary population it is not true. The
pountry, he says, owing especially to the
secondary communications every article
to accompanied by the writer's real name
to accompanied by the writer's r is double what it was ten years sgo. If seen. Inere is less wealth among in people, fewer people, camels, horses and stock of all kinds than ten years ago. Fruit and forest trees are also disappearing. Carmel was almost stripped of her timber for the Suez Canal, and as any fruit tree is taxed, whether it bears or not, few are now planted. Everything there appears to be finished. There is no progress, no improvement of any kind. progress, no improvement of any kind There are about thirty thousand Jews in There are about thirty thousand Jews in all Palestine. They are mostly from Russia, and do not go there to work or develop the country, but to die, that they may sleep with their fathers in holy ground. They are generally aged and poor, living on the charity of their people in Europe and America. It will require a different class of emigrants altogether, says the Doctor, to recover this cursed land. It is true there are new houses going up outsids the city walls but houses going up outside the city walls, but mostly small tenements, built by church committees for the benefit of their poor members. Work has been done on those committees for the benefit of their poor members. Work has been done on those dwellings by night to avoid the hot sun during the day, and not because there is such a demand for houses as has been reported. The latest programme for Palestine is not Jewish, but Papal occupancy. The Jewish, but Papal occupancy. The Jewish of Europe, adds Dr. DeHass, are dissatisfied with the condition of things in Italy, and there is a movement on footto make Jerusalem the head of the Latin Church. Commissioners have been appointed to negotiate for the territory; engineers have surveyed a railroad from Jerusalem to Jaffs; money is being collected for the erection of a magnificent palace for His Holiness on Mount Zion, to which the wealth of the Vatican is to be transferred. There the successor to Pius IX. is to be installed, and the "City of the Great King" is to be the future head of the Pontifical See. Ressia, however, may have something to say on the future of Palesting of Palesting

## however, may have something to say on the future disposition of Palestine. BIRD STORIES.

The Necessity of Fresh Air - Hab-its of the Canary.

bird too much fresh air. Even in the winter time, although it is never safe or expedient to hang the cage in the window, it is advisable to throw open the window once or twice a day and let in the air. Canaries are tender creatures, but they will stand a low temperature—as low as 50 degrees—providing they be out of the strike employed hundreds of laborers, but few men are now at work, and a truck wagon issearcely to be seen. It will take, some time before the great business of railroads will be on its feet again.

Mr. Vanderbilt, the millionaire President of the New York Central and Hudson River Railroads, has directed the distribution of \$100,000 among those laborers employed on his roads who did not engage in the strike. This looks like a magnificent donation, and it ig yet when you consider the fact that there are about 8,000 employee on these roads, and only 500 of them struck, the net gain to each one of the men will only average \$133. The question, however, is not mainly one of dollars and cents. It is one of principle and justice. It proves that it pays to do right under all circumstances, and that good conduct will always meet a proper reward.

Now that the strike is over and past, it is one of principle and justice. It proves that it pays to do right under all circumstances, and that good conduct will always meet a proper reward.

## A Very Proper Prisoner.

modern Democracy as a rule is not sound or in any way reliable. It is my opinion that Governor Mathews, of West Virgnatia, did right in calling for Federal interference, and I commend him for it, and so should all good clitzens, regardless of the imputations and slurs of the Sun or any other paper.

As might have been expected, the New York people don't like the Republican platform adopted at Cleveland last Wednesday. They are down on the "double istandard," and on everything that squints like liberating the people from the grasp of the bond-holders. Nothing but hard money (gold) and bonds suits New York. She has no patience with any other class of men or money, and nothing else could carry "cutters' are the first operatives to sufr in any way reliable. It is my opinion before in the history of Lyne, as a shoe

here. But in Ohio it is different, Ohio is a "soft money" State by 10,000. The Democrats have the soft platform square out, without aquirming or trimming; and with a figure-head for a gubernatorial and with a figure-head for a gubernatorial candidate, and no fixed principles in their minds, and but little honest sentiment in the hearts of the leaders, they will nevertheless make a big run in that State, as the vote in October will reveal.

stead of injuring, seems to have the tendency to improve the brightness of the plumage, and at the same time to put more vigor into the canaries song. Were I writing without some experience, I ashould unhesitatingly say, never subject your birds at all to tobacco smoke. But facts seem to controvert any counsel of the order; for my own birds, whenever tobacco is lighted, will, if the cage doors are open, imediately fly toward the smoker, and vie with each other in getting into the denseat cloud. Having smilled the aroms, they will light upon the should der, or the back of the chair, and pour forth the sweetest harmonies of the day, Parmit-me to suggest, then plenty of fresh air, and even moderate temperature are, occasionally tobacco smoke. Be sund however, that during and after smoking a current of fresh sir is allowed to pass through and to ventilate the room.

#### POUTY YEARS BEFORE THE PUBLIC DR. C. MOLANE'S CELEBRATED LIVER PILLS, FOR THE CURE OF

Hepatitis or Liver Complaint, DYSPEPSIA AND SICK HEADACHE.

ymptoms of a Diseased Liver. PAIN in the right side, under the edge of the ribs, increases on pressure; sometimes the pain is in the left side; the patient is rarely able to lie on the left side; sometimes the pain is felt under the shoulder-blade, and t frequently extends to the top of the shoulder, and is sometimes mistaken for a rhoumatism in the arm. The stomach is affected with loss of appetite and sickness; the bowels in general are costive, sometimes alternative with lax; the head is troubled with pain, accompanied with a dull, heavy sensation in the back part. There is generally a considerable loss of memory, accompanied with a painful sensation of having left undone something which ought to have been done. A slight, dry cough is some times an attendant. The patient complains of weariness and debility; he is easily startled, his feet are cold or burning, and he complains of a prickly sensation of the skin; his spirits are low; and although he is tisfied that exercise would be beneficial to him, yet he can scarcely summon up fortitude enough to try it. In fact, he distrusts every remedy. Several of the above sympoms attend the disease, but cases have occurred where few of them existed, yet examination of the body, after death, has shown the LIVER to have been extensively deranged.
